

Spinner Knobs.

Who it's for?

We provide a range of steering wheel spinner knobs to suit a range of user's needs. For some people it will be used on its own and for others it will form part of their hand control kit.

All knobs are high quality and designed to be functional and easy to use. Quick release coupling for quick removal, the clamping brackets are small and unobtrusive, avoiding damage to the steering wheel. The fixing clamp is the smallest and cleanest looking on the market.
